Press Release

10th August 2011

U.K and London Riots

The London Central Mosque Trust Ltd and Islamic Cultural Centre (ICC) believes that the recent rioting, looting and unfortunate loss of life that have disseminated across our country, is pure mindless benightedness. It seriously undermines the values of societal cohesion, and the efforts made by the law abiding citizens in Britain, who work hard on building bridges between communities and promoting tolerance and understanding in our populace.

We call upon the wider communities at large to remain assuage and alert. We also ask our respected community front-runners and supporters to aid and collaborate with the local authorities and the Police authorities in restoring the law to our streets, livelihoods and abodes.

Especially as we passage through this blessed month of Ramadan, our sphere of concern should stretch to all pockets of the wider communities and to enact a concerted effort to remain united during this highly distressing time.
